

Names Lab Sheet for section Monday 1 pm (Dr. Hahn, section 3 – did not get to Round 6 during lab class) and for anyone on quarantine or other valid excused absence who joined (or attempted to join) on zoom: Those with valid excuses may also just take an average instead of completing the following. (valid excused people who do not turn in this lab sheet, will earn an average for all their other lab reports taking into account the class average on the Names Lab Report.)

Example Excused Absence:
$$\frac{\text{calculated missing Lab Report grade}}{\text{your own ave all other lab reports}} = \frac{\text{class ave Names Lab Report}}{\text{class ave all lab reports}}$$

Those who were in class (section 3) should turn in their entire packet with this last page in place of Round VI.

Those who joined by zoom can turn in just this page. (The first 5 rounds will be worth 50% of the grade and round 6 OR this last page will be worth 50% of the grade. Zoom people did not see the cards for rounds 1 through 5, so those people will get 100% on the first 5 rounds without turning in the first 5 rounds.)

Turning in can be either into the file upload in their Canvas class (first 15 minutes of the next class) OR in person in the first 15 minutes of the next class.

Complete the following by either giving the name for the formula or providing the formula for the names. You may also show work under each final answer. If your work shows that you knew what you were doing but you made some final error, you will receive partial credit (even if your final answer is incorrect).

1. Li H SO_4 _____

2. disulfur heptaoxide _____

3. aluminum oxide _____

4. calcium phosphate _____

5. $\text{Sr}_3 \text{ N}_2$ _____
